

UNO

Complete Two channel mixer with hi/lo pass filter
each channel

TECHNICAL details

- 2 channel Mixer with 7 inputs
- Booth Output with independent Volume
- XLR Master Output
- Channel Reverse and Curve adjustment

The Mixars UNO is a solid two-channel professional-grade DJ mixer with some great basic features.

The Mixars UNO has great build quality with a full-metal chassis, Hi/low pass filter on each channel, sturdy faders, and the exclusive Galileo Kallisto as Crossfader.

Kallisto is a “razor sharp” contactless dual-rail crossfader that will ensure smooth operation and control during long-term usage.
