

Switcher Control Surface

Compact Broadcast Switcher Panel for BlackMagic Design ATEM

Developer Host Mode for Easy Integration into Custom Software Applications

The new JLCopper "ion™" is an even smaller hardware control panel for fast video switching in live production environments with Blackmagic Design ATEM.

It's a perfect tactile companion to the ATEM software with your laptop or desktop computer or use it stand-alone with ATEM, as a primary or secondary controller. Add ion rack ears and it's ready to mount in just two rack spaces for mobile fly packs.

It controls Blackmagic Design ATEM 1 M/E Production Switcher, ATEM 2 M/E Production Switcher, ATEM Production Studio 4K, ATEM 1 M/E Production Studio 4K, ATEM 2 M/E Production Studio 4K and ATEM Television Studio models.

It's perfect for for mobile, sports, educational, corporate, computer, house of worship and other applications.
