

INA-LC100

InFocus

Make any display more powerful with LightCast Technology

Part #: INA-LC100

Enhance your display's presentation, teamwork, and content-sharing capabilities with the LightCast Hub. This compact box adds a suite of four powerful LightCast features to your projector or display. Connect mobile devices and share content wirelessly; capture, save, and share notes on an interactive whiteboard; access the internet with a built-in web browser; and view or present documents, videos, and photos.

Make the most of the tools you already have with a LightCast Hub—so you can share information and collaborate better in the classroom, the conference room, or the boardroom.

Key Features

- ◆ Wirelessly share your device's screen to a LightCast-connected display
- ◆ Capture ideas on a full-featured digital whiteboard
- ◆ Access your favorite web content without a connected computer
- ◆ PC-less presentation of documents and files
- ◆ [Keyboard and mouse](#) (sold separately) are required for use with non-touchscreen display devices

Interactive Whiteboard

Capture ideas on a full-featured, built-in digital whiteboard.

- ◆ Create a whiteboard on a giant multi-screen canvas
- ◆ Collect, save, email or print information on the whiteboard right from the device
- ◆ Write or draw with a complete collection of digital pens, highlighters, shapes, lines, and colors
- ◆ Virtual keyboard uses US keyboard layout

Wirelessly share your device's screen to a LightCast-connected display. The LightCast Hub seamlessly supports the devices that you're already using.

- ◆ Cast from Apple devices using AirPlay, and from Windows or Android devices using Miracast
- ◆ Cast from Chrome devices, including Chromebooks, using the LightCast Sender Chrome browser extension ([download here](#))
- ◆ The Chrome browser extension also works for Apple OSX and Windows devices
- ◆ Full audio support from Apple, Android, and Windows platforms

Cast Your Device

Apple iOS	Apple OSX	Chrome OS	Windows	Android
AirPlay			Miracast	
	Chrome Browser Extension			

PC-less presentation of documents and files.

- ◆ Display Office files, like PowerPoint, Word, and Excel, as well as most photo and video file formats without a connected computer
- ◆ Easily annotate on files with digital pens, highlighters, and shapes
- ◆ Save and share annotated files after a meeting

Browse the Web

Access your favorite online content without a connected computer.

- ◆ Quickly access favorite websites, online curriculum, and file sharing platforms
- ◆ Connect the display to your network via LAN or WiFi
- ◆ Annotate over the web

Upgrade to the Power of Touch

Maximize the potential of your LightCast Hub by upgrading your display to an interactive [JTouch](#) panel from InFocus. Available in sizes ranging from 40" to 85", with a variety of options including ultra-responsive capacitive touch and vivid 4K resolution, [JTouch](#) enables a bright, multi-touch experience to better engage your audience.
