Christie Crimson Series

Long-lasting brightness and color. Rock-solid reliability.

Take on any large venue or staging event with the Christie® Crimson Series of high-performance, 3DLP® laser phosphor projectors. Built tough to withstand the rigors of demanding, high-usage applications, Crimson Series projectors are also easy to ship, handle and install thanks to a compact form factor, quiet operation and 360-degree orientation. Featuring an IP5X sealed, solid-state laser light source, Crimson projectors provide years of reliable, low-cost and virtually maintenance-free operation.

With Christie BoldColor Technology, these high-brightness projectors produce big, bright and intensely colorful images for amazing visual experiences. Add to this the ultra-fast processing of Christie TruLife™ electronics, built-in Christie Twist™ and compatibility with Christie processing products, and you can build out a powerful solution that works as needed, when needed. Benefit from the time and cost savings that come with reliable and long-lasting performance.
