

# DESKTOP MONITOR STANDS

SMS4500-P | 13398

Ergonomic thumb screw provides easy angle adjustments from 0° to 15°.

Secure pin adjustments plus sturdy plastic clutch allow for height adjustments from 9"-12.5".

4 rubber feet provide non-slip and help absorb shock.

## FEATURES AND BENEFITS

Perfect for home recording, smaller studios or anywhere space is limited, On-Stage SMS4500 Desktop Monitor Stands take small speaker placement to a new, super-stable, easily-adjusted and visually appealing level. All steel, black powder-coated construction provides structural integrity and elegant optics, while the 9" deep by 12" wide EVA-surfaced platforms, complete with 0-15 degree angle range, secure speakers and absorb vibration. Sold as a pair, SMS4500 stands also utilize a durable plastic clutch and interval pin stays for secure 9" to 12-1/2" height adjustment. The 10" by 10" base -- designed not only for stability but also to be seen -- includes four rubber feet for placement security and surface protection as well as first-line vibration dampening.

Your work station never sounded -- or looked -- so good!
