

## Ergonomic Small Pedalboard

## JS-PB200 item# 17986

The JamStands JS-PB200 Pedalboard from Ultimate Support offers a full-featured, lightweight pedalboard solution at a price point that won't cut into that precious pedal budget. Players just getting started in their sonic explorations and seasoned players with smaller floor rigs will love the lightweight simple construction combined with efficient functionality. The built in power supply clamp gives you a pedalboard that can grow with you, while the simple ports make it easy to keep things looking clean. Finally, the included soft case gives you the perfect storage solution, whether you are racing to a local show after work, or flying in for a festival. Wherever you're headed, the JS-PB200 is ready to go there with you.
