Snap-On Anchor

Auralex®
acoustics

Total Sound Control® Since 1977
www.auralex.com

NOTE: Snap-On Anchors should only be used with 2" ProPanels.
DO NOT USE with 1" ProPanels.

Ratchet Plug
Snap-On Anchor

Snap-On Marking Plug

Snap-On Hex Driver

1 Screw the Snap-On Anchors into the back of the panel using the Snap-On Hex Driver tool.*

* TIP: Sometimes it helps to cut the panel to get the anchor started. This can be done with a utility knife.

**2** Insert marking plugs into the Snap-On anchors.

3 Push panel against wall to mark anchor locations.

4 Screw ratchet plugs to wall at marked locations. *(**Number of screws varies with panel size.)*

5 Firmly push panel onto ratchet plugs to complete installation.

** Recommended quantity of **Snap-On Anchors** and screws to panels

Panel Size	Qty
2x2	4
2x4	4
4x4	4
4x8	8
