## MixWizard 16 INPUT MIXER with DUAL DIGITAL EFFECTS

The diagram shows a 16-input mixer with the following controls for each channel (1-16):

- PFD** (Phase Filter) knob
- HF** (High Frequency) slider
- MF1** (Mid Frequency 1) slider
- MF2** (Mid Frequency 2) slider
- LF** (Low Frequency) slider
- VEQ** (Variable EQ) slider
- PANN** (Pan) control
- REQ** (Request) button
- PSE** (Preset) button

On the right side, there are additional controls:

- PHANTOM** and **20V ON** switches
- ALX1-ALX6** (Algorithms) with level meters and **BYPASS** buttons
- ST1** and **ST2** (Stereo Effects) with level meters and **BYPASS** buttons
- ALL UP - L/R** and **MONO** buttons
- ALLEN & HEATH WZ16:2DX** logo

At the bottom, there are two large vertical sliders for **L** and **R** stereo balance.

Notes:
