Features

- Conforms to any environment, this nearly invisible shelf supports the HDS-WHDI100 Receiver unit and matches any décor
- Accommodates signal and power cables, whether secured to the wall or a mount with specially designed cable management portals
- Offers up to 2" (51mm) of horizontal adjustment for a great fit with virtually any flat panel TV
- Holds the HDS-WHDI100 Receiver with a securement screw, ensuring it will not slide or be bumped off in any way. Security and non-security screws included
- Easy to install

It's never been easier to integrate the PeerAir™ Wireless HD Multimedia System than it is now with Peerless-AV's Shelf (HDS-ASR1). The shelf secures and holds the Receiver unit (HDS-WHDI100). It can be attached directly to the wall or fastened to a wall mount supporting the Receiver under the HDTV. The shelf provides a clean and secure installation while allowing full IR functionality. With its cable management system, the AV and power cables are neatly organized and virtually unnoticeable.

HDS-ASR1: PeerAir™ Shelf Universal wall/mount support for HDS-WHDI100 Receiver
