G-Pro Racks

## Feature Information

Gator's virtually indestructible rotationally molded polyethylene rack cases are the ultimate in durability. The newly redesigned cases are available in standard 19" depth or shallow 13" depth and a variety of sizes. All cases come with threaded front and rear rack rails as well as, full sized front and rear rack lids for easy gear access. G-Pro Racks feature best in class, molded-in, ergonomic side carry handles and an improved stacking design which is fully backwards compatible with 1st Generation. The G-Pro Series is finished with sleek black Penn-Elcom MOL recessed twist latches and non-slip rubber feet.
