

Tilt 'N Plug Jr. Digital Interconnect Boxes

- TNP125 - Rectangular Bezel
- TNP126 - Circular Bezel
- TNP125C - Rectangular Bezel (User Configured)
- TNP126C - Circular Bezel (User Configured)

The TNP125 and TNP126 are natural extensions of the Tilt 'N Plug line of tabletop Designer Solutions by providing an excellent interface to digital devices, such as HDMI-equipped laptop computers, networks, and USB devices. TNP125 and TNP126 carry on the Altinex tradition for "easy to install, easy to use, and easy to maintain" products. Standard versions, TNP125 and TNP126 ship fully assembled with HDMI, USB, Ethernet (RJ-45), and 3.5mm Stereo Audio connections pre-terminated on 6' (2m) cables with a 9-10' (3m) power cable. Models TNP125C and TNP126C are user customizable variations of the TNP125 and TNP126 respectively. Visit www.altinex.com website to see all the connector options available for these models.

PRE-TERMINATED, READY TO INSTALL

Altinex Tilt 'N Plug products come pre-terminated for quick and painless installation into a table. An installation kit, including mounting hardware and cable clamps, provide all the hardware required for a professional and enduring installation.

CUSTOMIZABLE

Tilt 'N Plug products are customizable to support a variety of connector options. Options include different color RJ-45 connectors, telco (RJ-11/12), momentary switches, composite video, s-video, RCA audio, and more. Bezels are available in anodized matte black or brushed aluminum.

BEZEL OPTIONS

The Tilt 'N Plug Jr Digital Interconnection Boxes are available in a rectangular bezel, TNP125, as well as a circular bezel, TNP126. Not only is the circular bezel aesthetically pleasing but can be rotated to "direct" connectivity to individuals at odd seating angles.
