

DS2-A Beholder Angled 3-Axis Gimbal Stabilizer with Encoders

UPC: 847983022724

Overview

The Beholder DS2-A is designed specifically for professional filmmakers looking for a single handheld stabilizer for a large range of small cameras weighing up to 5 lbs.

The DS2-A features a unique angled roll motor arm, which allows you to have a better view of the camera's screen while using the gimbal. In addition, the DS2-A also features a 60 second Auto-Sweep mode, which allows you to program a 60 second camera movement.

The Beholder DS2-A is lightweight, easy to use, and can be carried in your camera bag. It is also versatile enough to be used with a DSLR, mirrorless camera, GoPro, or smartphone.

Special Features

- Durable all aluminum construction
- 360 Degree movement from pan axis
- Work with cameras up to 5 lbs (2267 g)
- Multiple modes of operation
- Equipped with 3-axis gyro stabilized brushless motors to balance most mirrorless cameras as well as smartphones and GoPro cameras
- Angled Motor Arm
