

Technical Specifications

TL-SSF-TERMK-1 Fiber Termination Kit

Features at a Glance

- Precision wheel fiber cleaver
- Aramid strand scissors
- Tri-hole fiber strippers
- Visual fault locator, 650nm
- Fiber optic disposal unit
- Black marker
- 50mm ruler
- Tool kit carrying bag and strap

The TL-SSF-TERMK-1 Fiber Termination Kit provides the required tools to terminate fiber.

The included high precision wheel cleaver produces quality cleaves without the need for microscope verification. The blade provides up to 36,000 cleaves via an easy blade position selection adjustment.

A verification fault locator allows visible laser light to be used during the termination process.

The kit includes precision fiber strippers, VFL, and other hand tools. All items are located in a convenient bag that protects the included tools while allowing ease of access.

Kit Contents

Quantity	Item
1 ea	Precision wheel fiber cleaver
1 ea	Visual fault locator, 650nm
1 ea	2.5 to 1.25mm SC to LC adapter
1 ea	Aramid strand scissors
1 ea	Tri-hole fiber strippers
1 ea	Fiber optic disposal bottle
1 ea	Black marker
1 ea	50mm ruler
1 ea	Tool kit carrying case and strap
