# C200

200 Watt Powered Column Loudspeaker with an 8" Subwoofer, 4 High Frequency Drivers, Bluetooth Audio Streaming, LED Lighting and Remote Control

- Modular column loudspeaker for portable PA applications and high quality music playback
- Extremely wide sound dispersion provides consistent sound to the audience and performers
- 200 Watt power with multi-channel Class-D technology
- High quality Bluetooth\* audio streaming
- MP3 player included to play audio files via USB sticks and SD/MMC cards
- LED lighting creates club-style atmosphere
- Comprehensive remote control included for ultimate flexibility
- 3 channel mixer with individual gain controls
- Studio-grade echo adds finishing touch to your sound
- Intuitive user control interface with LCD display for ease of navigation
- 8" high excursion low frequency driver for strong sub-bass response
- 4 x 2.5" drivers with edge wound copper voice coils for extended high frequency reproduction
- Precision-lock system eliminates speaker cables and stands
- High impact and lightweight enclosure

We call the C200 a modular column loudspeaker, but you'll call it simply amazing! Engineered to provide extremely wide dispersion and high-quality sound, the C200 brings it all together in a surprisingly lightweight (29.3 lbs/13.3 kg) and easy to use, all-in-one form factor. Thanks to the onboard 3-channel mixer and 200-Watt Class-D amplifier driving a custom-engineered 8" subwoofer for deep bass, and 4 x 2.5" drivers for extended high frequency reproduction, the C200 is ideally-suited for small to medium-sized performance venues, houses of worship, boardroom presentations, nightclubs, and much more. Bluetooth connectivity lets you stream music from your smartphone, tablet or other enabled device, plus the onboard MP3 player lets you access audio files on USB sticks and SD/MMC cards. Best of all – the included remote control lets you manage the system from anywhere in the room.

## Portable

- Integrated protective perforated steel mesh grilles
- Integral ergonomic carrying handle for ease of portability
- 3-Year Warranty Program\*
- Designed and engineered in the Germany

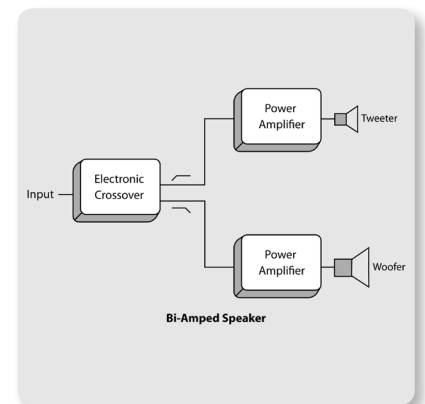

## Class-D – Massive Power, Perfect Sound

Thanks to our revolutionary Class-D amplifier technology, we are able to provide you with enormous power and incredible sonic performance in an easy-to-use, ultra-portable and lightweight package. Class-D amplification makes all the difference, offering the ultimate in energy efficiency and eliminating the need for heavy power supplies and massive heat sinks. This amazing technology makes it possible to design and build extremely powerful products that are significantly lighter in weight than their traditional counterparts, while using less energy and protecting the environment.

## Bi-Amplification - The Path to Absolute Signal Integrity

With its 200 ultra-clean Watts of digital output delivered courtesy of true bi-amping (2 amplifiers per speaker system), the C200 delivers high-resolution sound that really brings out the best in your music. While some of our competitors apply simple passive crossovers, which inaccurately separate the frequency spectrum and degrade driver performance, Behringer has gone the extra mile – driving the woofer and tweeters with separate amplifiers for absolute signal integrity.

## Big on Bluetooth

We know your music lives on your phone, computer or tablet, so we've made it easy to access and play through the C200. With a simple swipe of your finger, you can instantly stream all of your favorite music from any Bluetooth-equipped device, such as your computer, smart phone or tablet. Streaming music via Bluetooth Technology opens up a tremendous amount of available content, such as a virtually limitless array of online radio-channels, multimedia providers and much more. Imagine that you have the whole PA at your fingertips; control the party from the dance floor, or the background music comfortably from your chair. Simple, easy and amazing!

## LED Light Show

Yes, you read that correctly; the C200 comes equipped with its very own light show. As the music plays, an array of multicolor LEDs dance in time to the music and sweeps through a vibrant palette of patterns and colors – guaranteed to get the party started!

## DSP & Remote Control

The C200 provides a wealth of features not typically found in a portable PA loudspeaker of this class. Features like DSP (Digital Sound Processing) with 3 band EQ, echo and dedicated presets for Pop, Rock, Jazz, Classic, Country or Music that can be switched between your SD files, FM radio and Bluetooth-streamed tracks. These settings can be adjusted locally using the intuitive user control interface with LCD display, or via the included remote control, which also functions as command central for all playback duties.

**Built-in Mixer**

The C200 features a fully addressable onboard 3-channel mixer with two 1/4" inputs that accept balanced or unbalanced TRS and TS dynamic mics, and a combo 1/4"/XLR connector that accepts balanced or unbalanced connections for dynamic mics and line-level instruments, such as an external mixer. The simple and intuitive user interface consists of a dedicated Level control per channel, a Master volume and separate controls for Treble and Bass.

**Onboard MP3 Player**

For those times you want to rock out old-school style, C200's MP3 player has you covered – and it accepts your music files whether they live on a USB stick or an SD/MMC card. The more tunes, the merrier!

**Custom-Engineered Drivers**

Powerful, high-efficiency Class-D amplifiers technology sure sounds impressive – but what about the part of the system you actually hear? We never cut corners on our drivers (woofers and tweeters), and we never just pull what we have off the shelf. Our LF (Low Frequency) and HF (High Frequency) drivers are designed specifically for each application – it's what sets us apart from the competition. When you buy a Behringer active loudspeaker, you can rest assured the drivers inside have been engineered to perform flawlessly with every other element for truly professional results. The C200 cranks out massive quantities of low end, with articulate, detailed mids and crystal-clear highs.

## Extraordinarily Versatile

The C200's extraordinary fidelity and frequency response makes it a favorite of public speakers, vocalists and instrumentalists alike. Setup and operation couldn't be simpler, just plug in a microphone and power – and let the show begin. Additional active loudspeakers can be chained together via the XLR Output jack on the rear panel.

## Sound Value

The C200 stands head and shoulders above the rest of the pack and delivers exceptional performance, even when pushed to the limit. Lightweight and powerful with Bluetooth streaming, 200-Watt bi-amplified Class-D power, onboard MP3 player, DSP and custom-designed drivers, the C200 active loudspeaker is ideal for both speech and music applications – at a price that is unheard of in this class.

Experience the C200 at your local dealer today, or get yours online, and find out why more and more professionals are turning to Behringer active loudspeakers for their superb performance and extraordinary value.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [Music Tribe](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [Warranty program](#).
