HALOGEN LAMP WARNING!

This fixture is fitted with halogen lamps which are highly susceptible to damage if improperly handled. Never touch lamp with bare fingers as the oil from your hands will shorten lamp life. Also, never move fixture until lamp has had ample time to cool. Remember, lamps are not covered under warranty conditions.

Product Discription:

Great effect for mobile DJ's and small clubs, the Avenger II[™] produces 20 beams of multi-color light that rotate back and forth to the beat of the music via the internal mic. Fan cooled, extremely reliable. Includes hanging bracket and lamps. Optional 300W ADJ-300, 150 hr. Long Life lamp also available.

Operating Instructions:

Unit is ready to be hung or set on flat surface. Unit will react to bass sound of music via its internal microphone. Adjust the sensitivity knob on rear of unit for desired effect. Be sure not to obstruct cooling vents. Keep in a well ventilated area. For best results, use fog in order to see the beams of light.

Caution! Never open unit when in use. Always disconnect main power before serving or replacing lamp. Remember always replace same lamp and fuses.

Lamp replacement: Unscrew lamp replacement door. Remove and replace lamp.
