

# SAMSUNG SMART LED SIGNAGE IF SERIES

BRILLIANT IMAGINATION. ON DISPLAY.

## Key Features:

- LED HDR image processing optimizes LED brightness, color, and picture quality for a more realistic viewing experience
- Dynamic peaking elevates grayscale, ensures clear and detailed expression even in low brightness settings
- Factory and On-site DSLR Calibration for Perfectly Balanced Color and Uniformity
- Clean, Hassle-Free Install and Maintenance with Full-Front and Rear Access
- Single UHD LED image processor (S-box) with advanced content mapping, scaling, calibration and control
- Fan-less design prolongs displays overall life span by minimizing the impact of dust and rigid particle exposure
