MP102 PROFESSIONAL MP3 CD PLAYER

MP102
PROFESSIONAL MP3 CD PLAYER

APPLICATIONS

With support for the MP3 file format, the MP102 makes it easy for mobile DJs to transport a massive music library without occupying much space or weight. And with a rackmount form factor, the MP102 is perfectly suited for permanent installations. Making it an ideal player for:

• Mobile DJs

• Installation in bars and clubs

• Schools, churches, radio stations, clubs and restaurants.

KEY FEATURES

• Ability to play both standard audio CDs as well as MP3 discs

• Buffered Anti-Shock™ memory protection for consistent music playback

• Ability to create seamless loops – both CDs and MP3 discs

• Buffered instant start and stutter start with settable stutter points

• Easy-to-read, backlit LCD that includes text display for identifying song names and other information

• ± 8/16% pitch bend capability via the pitch bend / jog wheel

• Supports true continuous playback and is track sequence programmable

• Balanced and unbalanced outputs, digital ouput (SPDIF)

PRODUCT DESCRIPTION

Designed for a variety of applications, the MP102 CD player is a rackmountable solution to a wide variety of music playback requirements. Numark's MP102 plays standard audio CDs and MP3 CDs, provides buffered Anti-Shock™ memory protection, delivers seamless looping for both CD audio and MP3 files, pitch control with a pitch bend wheel, stereo RCA and digital outputs, balanced outputs, and an EQ section. The unit features a large, backlit LCD, provides ± 8/16% pitch bend capability via its pitch bend/jog wheel, supports true continuous playback, is track sequence programmable, and supports both folders and ID3 tags for easy identification of materials.

POSITIONING

As a rackmountable unit, Numark's MP102 is ideal for anyone in search of an easy-to-transport, affordable disc player that supports both CD audio and MP3 files. With digital output capability as well as both line level and balanced audio outputs, the MP102 facilitates easy integration into a variety of playback environments.
