

BROADCAST and PRODUCTION Bundle

The Broadcast and Production Bundle consolidates Waves critically acclaimed Renaissance Maxx, Masters, and Restoration processors into one whole tool set, offering a full range of processing tools for all studio, production, and broadcast applications.

Renaissance Maxx Processors

- Get amazing Voice Overs
- Special Filter Effects
- Enhance room simulations
- Generate a full body sound on any consumer playback system
- Award winning (Blue Ribbon, SSAIRA) Processors

Restoration Processors

- Clean-up location and production Audio – Salvage audio previously unusable
- Solve special audio problems – Rumble, hiss, bad miking, noisy environment, poor tone
- Make old recordings broadcast-worthy
- Simple and easy operation
- Winner of the TEC Award for Signal Processing Technology 2002

Masters Processors

- Innovative linear phase design eliminates phase distortion and coloration
- Transparent and precise dynamics and filtering control
- Multiband dynamics control - Make a single dynamics-controlled stereo output from all stations
- Shape equalization with precision without phase distortion
- Absolute peak limiting with zero artifacts

SIGNATURE OF EXCELLENCE
