

SNAPGRID®

OPERATING INSTRUCTIONS

SAFETY INSTRUCTIONS

- DoPchoice products are professional products for use with professional LED luminaires only.
- Before using your DoPchoice product please read these instructions carefully and refer also to the instructions of the dedicated luminaire.
- Please keep these instructions for future reference.
- Do not leave DoPchoice products unattended while they are in use.
- Please make sure that you take care of local safety regulations and guidelines while using DoPchoice products, such as mechanical safety attachments etc.
- Intense heat, moisture, acidic and chemically aggressive substances may damage your DoPchoice product and may lead to an insecure operation.
- Do not use your DoPchoice product in case of any damage. Contact ELATION Customer Support for any issues.
- Please take additional safety measures when you use DoPchoice products under windy conditions.
- Clean your DoPchoice product only by hand washing with well-tempered water and mild soap – DoPchoice products may not be machine washed. In order to dry, please assemble completely and let it dry by air.
- It is not allowed to modify and/or repair DoPchoice products by yourself.
- Store and transport the DoPchoice product in the transport bag after usage.
- DoPchoice and/or ELATION is not liable for damages caused by incorrect operation.

Maximum rated temperatures for DoPchoice products:

$T_{\text{ambient}}: +50^{\circ}\text{C}$ (122°F) / $T_{\text{surface}}: +85^{\circ}\text{C}$ (185°F)

SNAPGRID® – MOUNTING OPTIONS Attach to fixture using included velcro fasteners.
Please take care no ventilation inlet on the luminaire will be blocked by the SNAPGRID.
