 - 1.63 lbs. / 0.74 kg (ZP-1 with synthetic fur windscreen)

Marantz Professional ZP-1

The Marantz Professional ZP-1 is designed for film and television production audio, and any sound-gathering situation where reliable protection from wind noise is needed. A synthetic fur cover is included to increase wind noise attenuation up to 50dB. The windscreen has an internal shock mount suspension system to accommodate mics up to 14.5" long, and can be attached to a boom pole or handheld. Lightweight and durable, this is an essential tool for any field production kit.
