

## GENERAL INFORMATION

Available in two sizes with optional audiovisual and ethernet capabilities, ColorSource consoles provide hands-on control designed for the latest technology. These affordable, portable desks specialize in streamlined, plug-and-play setup; the console recognizes intelligent lights in the rig and auto-populates them in patch, and the on-board touchscreen allows fixtures to be dragged into place on a customizable stage map for quick selection and programming. The faders and touchscreen can be used to control moving lights, mix LED colors, play stored looks and effects and - with the AV consoles - play sound and visual media.

### APPLICATIONS

- One-off events
- Corporate theater
- Touring productions
- School auditoriums/theaters
- Community theater
- Houses of worship
- Small TV studio
- Tradeshows
