

## Accessories

# DM801

RS232 / Ethernet Interface for DM8000 Control

- RS232 / Ethernet adapter device for IP network control of DM8000
- Provides IP control from 3rd-party controllers through DM8000 RS232 port
- POE (Powered over Ethernet) for convenient network deployment
- Extra RS232 port to connect to 3rd-party control systems
- Built-in LED provides power indication
- 10-Year Warranty Program\*
- Designed and engineered in the U.K.

Designed for customers seeking the ideal Ethernet interface for IP network control of their Klark Teknik DM8000 Digital Audio Processor, as well as 3rd-party controllers, the DM801 provides the ultimate in seamless RS232 networking integration.

### Power over Ethernet

The DM801 comes ready for implementation with no need for external power, thanks to its Power over Ethernet (PoE) technology. The bright-blue LED on the front panel illuminate to verify the device is receiving power.

\*Warranty details can be found at [musictribe.com](http://musictribe.com).

RS232 / Ethernet Interface for DM8000 Control

## Ease of Use

All DM801 functions are controlled from the main DM8000 unit via the DM8000 DSP Designer Software, which is a free download available at [klarktechnik.com](http://klarktechnik.com). An additional RS232 port is supplied to connect 3rd-party controllers to the DM8000. With its compact size of only 45 x 117 x 120 mm (1.8 x 4.6 x 4.7") and weight of 0.85 kg (1.87 lbs), the DM801 is perfect for deployment – even in tight spaces.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [Music Tribe](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [Warranty](#) program.
