

## Network Modules

# DM80-DANTE

Dante Expansion Module with 16 x 32 Channels, Additional ULTRANET Audio Networking and Ethernet Connectivity

- Dante\* expansion module for KLARK TEKNIK DM8000 etc. featuring Dante and ULTRANET audio networking
- Expands the processing benefits of DM8000 to third-party systems
- Dante enabled audio networking enables up to 16 input and 16 output channels
- ULTRANET digital audio networking for additional and simultaneous 16 output channels
- Full software configuration and control via integrated Ethernet port
- Dual RJ-45 connections for Dante primary and secondary networking interface
- Transformer-isolated design to eliminate ground loop interference
- 10-Year Warranty Program\*
- Designed and engineered in the U.K.

The DM80-DANTE is a multichannel audio interface expansion card that enables the KLARK TEKNIK DM8000 Digital Audio Processor to connect to external devices using the Dante high-performance digital media protocol to deliver audio over a standard Ethernet IP network. Dual RJ-45 connections share 16 x 16 channel networking of 24-bit / 48 kHz low-latency audio over Cat5e cable (max. 100 m / 330 ft.), while DM80-DANTE's Ethernet connection provides comprehensive PC remote control and configuration. Additionally, a proprietary digital audio networking ULTRANET connection simultaneously outputs up to 16 channels of audio. The DM80-DANTE lets you harness all of the processing benefits of the DM8000, even when it is used in third-party system applications.

## DM8000 Processing Power

Modern meetings and telephone/ video conferencing requires a flexible digital audio processor with user-friendly features, such as user-configurable DSP and routing options, multiple inputs and outputs – and auto mixing. Processing modules include: Input; Output; ULTRANET I/O digital audio transport output for use with compatible devices; AEC (Automatic Echo Cancellation) for up to 8 channels; USB In and Out; Mixers; Auto Mixer; Equalisers; Feedback Suppression; a variety of audio filters, and much more. DM8000 provides a massive audio toolkit, empowering you to create the

ideal custom configuration for any application.

## Software Support

The **DM8000** works with a growing range of digital audio products, and the PC-based software is an easy and free of charge download for registered users at [klarktechnik.com](http://klarktechnik.com). We recommend that you periodically check your unit's product page for firmware updates, as we are constantly adding and enhancing features.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Tribe** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **Warranty** program.
