

dvd±rw^{SLIM}

DOUBLE LAYER
DESIGN BY F.A. PORSCHE

- Burn customized 8.5GB video DVDs
- Store photos, MP3s and videos on your discs
- Comes with PC recording software
- LightScribe Direct Disc Labeling

STORE UP TO 8.5GB ON ONE DISC

With double layer DVD recording technology, the LaCie Slim DVD±RW Drive with LightScribe, Design by F.A. Porsche can be used to store nearly twice as much data as before. With up to 8.5GB of space on a single-sided, double layer DVD disc, save up to 16 hours of VHS video, 4 hours of personal, high-quality DVD video or up to 8.5GB of important data. Large-capacity, double layer DVD media is also ideal for backing up computer systems or saving thousands of MP3s.

NEW LIGHTSCRIBE DISC LABELING

This drive is now equipped with LightScribe—an innovative new technology that allows you to burn silkscreen-quality labels directly onto CDs* and DVDs* with a laser instead of a printer. LightScribe uses a combination of your CD/DVD drive, specially coated discs, and enhanced disc-burning software to produce precise, professional labels. The result is an impressive iridescent image composed of art, text, or photos of your own creation.

BROAD CD AND DVD COMPATIBILITY

Conveniently compatible with DVD+R/RW and DVD-R/RW media and virtually all DVD players, the LaCie Slim DVD±RW Drive with LightScribe, Design by F.A. Porsche lets you choose the format you'd like to use. With the ability to store digital data on DVD or CD media, this all-in-one drive accommodates a variety of multimedia jobs. This rewritable drive can be connected to any PC. Write to DVD-R/RW, DVD+R/RW, CD-R/RW and double layer DVD+R9 media.

FULL-FEATURED SOFTWARE SUITE

An easy-to-use interface allows you to piece together Hollywood-style DVD movies in a matter of minutes complete with menus, thumbnails and backgrounds for a totally customized DVD. Complete double layer recording software bundles include Easy Media Creator 7 and DVD Max Player for PC.
