

IP65 Wash Fixture with 9x RGBAW+UV LEDs!

Looking for the ultimate 1/2-meter IP65 rated outdoor wash fixture with 6-in-1 RGBAW+UV color mixing abilities? Well look no further than the ultra-cool ToughStick EXA™ with 9x super bright 15-watt 6-in-1 RGBAW+UV LEDs! Just like our very popular ToughStick 5™ LED fixtures, the ToughStick EXA™ will give you an endless amount of beautifully mixed RGBAW colors, but also gives you the extra ability to add UV to the mix to give your colorful creations a more interesting, eerie hue... or you can always just go full on UV for an intense, awesome effect!

The weatherproof 4-button LED control panel found on the side of the ToughStick EXA™ gives users full control of all the features and settings such as full RGBAW+UV color mixing, 35 built-in programs, strobe and speed controls, plus sound active mode. The fixture can also be controlled via DMX master/slave in either 3/6/8/10 or 11-channel DMX modes.

Another notable feature of the ToughStick EXA™ is ultra smooth flicker-free 32-bit dimming (5 user-selectable dimming curves) which are selectable via either the LED control panel or DMX. The advanced 32-bit dimming circuitry found in the ToughStick EXA™, just like many of our fixtures have, allows you to choose between 5 different dimming modes, each allowing different amounts of steps for smoother (and slower) dimming. Depending on which mode you use, the steps will be added to the first 25%, 50% or 75% of the dimming curve. And the results are really very noticeable, especially at low levels.

The ToughStick EXA™ comes with all the necessary components including an IP rated AC power cord with cable cap, IP rated DMX in/out cables, and dual mounting brackets with locking knobs for secure positioning and flexibility. Link several units together via 3-pin XLR input & output for an even more colorful light display. Based on its many features, quality design, and affordability, the ToughStick EXA™ would be a great choice for just about any architectural wall wash or performance stage lighting application!

It's an exceptional performer at an exceptional price. And of course, it is also backed by Blizzard's 2-year warranty!

Lux/m	Red	Green	Blue	Amber	White	UV	All
1m	2,230	2,090	2,170	1,000	3,130	410	9,430
2m	570	540	550	260	880	130	2,490

Warranty

• 2-year limited warranty, does not cover malfunction caused by damage to LEDs.

Main Features

- RGBAW+UV color mixing via 9x 15W 6-in-1 LEDs
- Variable electronic strobe & dimmer
- Built-in color & chase macros via DMX
- Built-in automated programs via master/slave
- RGBAW+UV color mixing ability in standalone mode
- Easy to use 4-button LED control panel
- Flicker-free constant-current 400hz LED driver
- Totally silent convection cooling
- IP Rated AC power cord with cable cap
- IP Rated DMX in/out cables
- Dual mounting brackets for positioning flexibility

Power

- Operating Voltage: 100-264VAC, 47-63 Hertz
- Power Consumption: 104W, 1.36A
- Power Factor: .63

Optical

- Beam Angle: 25 degree optics

Thermal

- Max. Operating Temp.: 104 degrees F (40 degrees C) ambient

Control

- Protocol: USITT DMX-512
- DMX Channels: 3/6/8/10/11
- Input: 3-pin XLR Male
- Output: 3-pin XLR Female
- Standalone, Master/Slave, Sound Active, Color Preset

Weight & Dimensions

- Length: 26.5 inches (672 mm)
- Width: 3.37 inches (85.4 mm)
- Height: 5.35 inches (136 mm)
- Weight: 11.03 lbs (5kg)
