8-Channel High-Power Headphones  
Mixing and Distribution Amplifier

- Professional, multi-purpose headphones amplifier system for stage and studio applications
- Highest sonic quality with virtually all types of headphones even at maximum volume
- 8 totally independent stereo high-power amplifier sections in one rack space
- 2 stereo Main inputs for two independent mixes, accessible from all 8 output channels
- 8 independent Direct inputs provide up to 8 individual stereo mixes
- Output level control and accurate 8-digit LED output meter per channel
- Mono/stereo switch per channel for more flexibility
- 1 front and 1 rear TRS phones connector per channel
- Direct input connector on each channel for easy connection of any sound source
- Parallel Main outputs allow cascading of several headphones amplifiers
- "Planet Earth" switching power supply for maximum flexibility (100 - 240 V~), noise-free audio, superior transient response plus low power consumption for energy savings
- 3-Year Warranty Program\*
- Designed and engineered in Germany

An articulate headphone mix can make all the difference in the outcome of a recording session. The 8-channel POWERPLAY PRO-8 HA8000 features superior performance, routing and mixing functions to accommodate even the most discerning set of ears. Two independent stereo Main Inputs, along with a dedicated Direct Input on each channel allows individual performers to obtain a more customized monitoring mix. When optimized mixes have to reach multiple listeners, each with their own specific requirements, the HA8000 delivers high-quality headphone mixing – in a class all its own!

### All Together Now

The HA8000 offers 8 high-power amplifiers that can drive loads down to 8 Ohms. Each amplifier section features its own 8-digit LED Output Level meter, Main In 1/Main In 2 select switch, a stereo or dual mono select switch, and a 1/4" Direct Input for integrating an additional sound source. The front panel gives you one 1/4" Phones Out jack per channel. The Main Section features a dedicated 5-segment LED Input meter, plus Main In 1 and Main In 2 Level dials.

## Connections

On the back panel you'll find an additional ¼" Phones Output per channel, allowing up to 16 pairs of headphones to listen to 8 separate mixes at once. The back panel also provides access to the HA8000's per-channel Direct Inputs and the Main 1 & 2 Inputs.

## Great Sound, Great Value

When a recording session calls for everyone's head and ears to be in the game, the POWERPLAY PRO-8 HA8000 is essential – and ultra-affordable. With 8 discrete channels and the ability to connect up to a 16 sets of cans, this is one tool you will use every day. Let your ears guide you by checking out the amazing HA8000 at a [BEHRINGER](#) dealer, or get yours online today!

## You Are Covered
