

## 2000W Water-Based Low Lying Fogger

AtmosFEAR® Big Bad Lo Fo is an amazing low-lying fog machine based on ultrasonic atomization. Co2 or dry ice is not needed to create stunning fog effects, just good ol' fashioned water + a little fog juice. The water tank can be filled manually, or automatically by use of its water supply inlet, nozzle connector, and built-in float switch.

The water tank is fitted with piezoelectric disks which vibrate to ultrasonic frequencies, causing the water to atomize into a fine mist. In a separate tank in the front cabinet of the unit, you can add any type of water based fog liquid (light, standard, heavy, etc.) in order to give the effect different levels of dimension, intensity and duration.

### Main Features

- DMX controllable water-based low-lying machine
- Continuous or timed fog output
- Tour-ready ATA-spec flight case with wheels
- 2000W heat exchanger
- Touch screen LCD control panel menu display
- Timer with interval and duration settings
- 2 x 10FT output hoses w/adjustable clamps
- Remote, sensor, heater, & low fluid fault warnings
- 3/5-pin DMX connectivity
- 3-channel DMX control
- Wireless remote control included
- Underside valve for easy tank draining
- Includes water inlet nozzle connector
- PowerCON® compatible power input connector

#### Optical

Warm-up Time: 5-8 min.  
 Water Tank Capacity: 13L  
 Fluid Tank Capacity: 2L  
 Fluid Consumption: 1L/h  
 Output Hoses: 2 x 10FT

#### Weight + Dimensions

34.7 x 19.3 x 20.5 in.  
 (88 x 49 x 60 cm)  
 Weight: 96 lbs (44 kg)

#### Control

Touch Screen LCD Menu  
 DMX Channels:  
 3-Channels  
 Input: 3/5-pin XLR Male  
 Output: 3/5-pin XLR Female  
 Standalone, DMX-512,  
 M/S, Wireless Remote

#### Power + Current

Voltage: AC110-220V  
 50/60Hz  
 Fuse: 15A, 250V  
 1983W, 19.1A, PF: .99

#### Warranty

1-year limited warranty
