Actual product and accessories may vary from photo shown. TV and Audio system are not sold with LaCie silverscreen. *Calculations are based on 1GB (1Gigabyte)=1,000,000,000 bytes. Total accessible capacity varies depending upon operating environment (typically 5-10% less). 1 JPEG photo=0.9MB; 1 MP3 song=3.6MB; 1 MPEG4(DivX) movie=900MB; 1 MPEG2 (DVD) movie=4.5GB. These values can vary. **VGA and component video cables/support are sold separately. Windows is a registered trademark of Microsoft Corporation. All rights reserved. Macintosh, Mac, Mac OS are registered trademarks of Apple Computer, Inc. All rights reserved. The LaCie silverscreen is not designed, intended nor may it be used to violate anyone's copyright or other IP (Intellectual Property) rights. Each silverscreen user may only use it in connection with materials legally owned or licensed by such user and only to the extent such ownership or license rights permit such use.

1. Store multimedia data on your silverscreen

2. Connect silverscreen to your TV

3. Navigate your media with the remote control

80GB* = About 80 MPEG4 (DivX®) movies or 15 MPEG2 (DVD) movies or 80,000 photos or 20,000 songs

NO COMPUTER REQUIRED - PLAY BACK ON YOUR TV

With an easy-to-use menu and convenient remote control, the LaCie silverscreen lets you enjoy your favorite entertainment wherever there is a television.

QUICK AND EASY SETUP - IT EVEN HAS A REMOTE

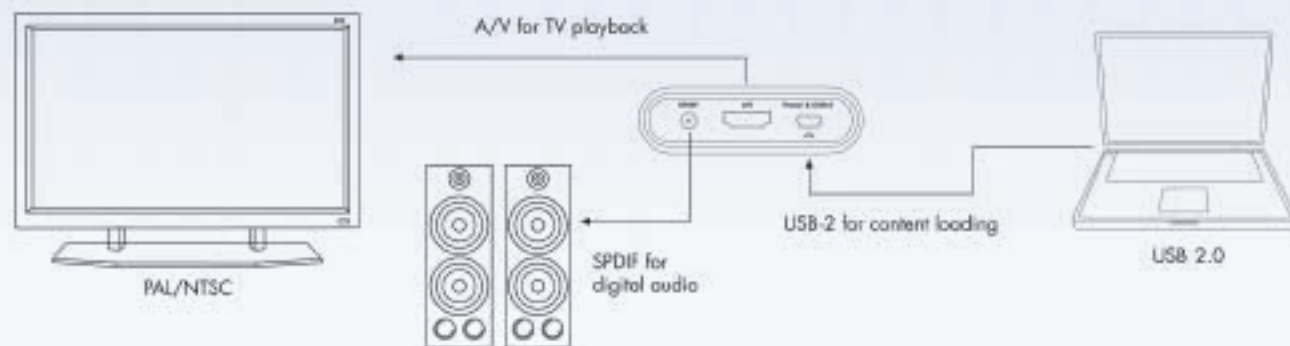

The pocket-sized LaCie silverscreen connects directly to TVs, VCRs, cable boxes or satellite tuners for instant playback of stored home movies, music or photos.

SHARE YOUR VISION

Add even more life to your exhibitions or promotions by incorporating exciting audio and visuals through the LaCie silverscreen.

PICK YOUR FORMAT FOR EASY PLAYBACK

The LaCie silverscreen allows you to choose from MPEG-1, MPEG-2 (AVI, VOB, ISO) and MPEG-4 (AVI, DivX®, XviD) video formats for easy playback.
