CC-300 CORIOconsole provides a Video Production Switcher type interface for the C2 series Universal Video Processors. Two rows of 14 buttons are provided for Preview and Program functionality of mixed format sources. Fades and wipes may be either automatic with preset times or manually controlled via the fader bar. The joystick employs full range of motion to allow precise positioning of P-I-P inserts and other functions. The Integrated LCD touch screen plus fixed purpose function keys combine with "soft" function keys to provide total control over multiple C2 series units. The CC-300 provides access to all controls with a minimum of keystrokes. Optional machine control is available via the LCD touch screen. The unit is in a low profile desk top case that may also be rack mounted.

CC-300 CORIOconsole
