

SINGLE EAR MICROPHONE

EM-77
Q-EM-77

DESCRIPTION:

The **EM-77** and **Q-EM-77** are high quality single over the ear microphones consisting of an electret transducer capsule exhibiting an omni-directional characteristic.

Because of its lightweight construction, it allows the user complete freedom of movement making it ideal for theatre, conference and education use.

EM-77: Compatible with **TOA's Trantec S5.5 UHF Microphone System**. This over the ear microphone is available in beige and uses a 4 pin Mini XLR connector.

Q-EM-77: Compatible with **TOA's 5000 Series UHF Microphone System**. This over the ear microphone is available in beige and features a 3.5mm jack plug.

SPECIFICATIONS:

Technical Specifications	EM-77 (S5 Series)	Q-EM-77 (5000 Series)
Polar Pattern:	Omnidirectional	
Transducer Type:	Electret condenser	
Operating Voltage:	1.5-10 volts min/max	
Sensitivity:	5mV/Pa +/-3dB	
Frequency Response:	20Hz - 20KHz ±3dB	
Colour:	Beige	
Connector:	4 pin Mini XLR Connector	3.5mm Connector
