

MS7250

Dome Base Microphone Stand

MICROPHONE STANDS

FEATURES AND BENEFITS

Thanks to the improved low profile design and the multiple rubber feet, this stand will not wobble or tip! This stand also comes complete with a die-cast zinc clutch and a black powder coat finish.

5/8" - 27 solid threaded upper shaft.

Mid-point die-cast zinc clutch. Internal "counter clutch" mechanism holds upper shaft in place until desired height adjustments are made. This prevents microphones from crashing down when clutch is loosened.
