

# MS7255

## Dome Base Mic Stand w/ Patented Foot Pedal

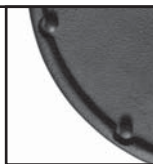

MICROPHONE STANDS

### FEATURES AND BENEFITS

Use only one hand to adjust the height or unscrew your clip on this stand! The anti-rotation feature means never holding the lower shaft to prevent loosening from the base. Oversized threads means it takes only seconds to assemble or disassemble this stand. Just turn the shaft clockwise to lock and simply step on the foot pedal and turn counter-clockwise to release.

Improved low profile design and 8 rubber feet means that this stand will not wobble or tip! So the microphone will never knock you in the face during a show.

Get the Round Base Upgrade!

*Go ahead! Use one hand to adjust the height. Use one hand to unscrew your clip. The anti-rotation feature means never holding the lower shaft to prevent loosening it from the base.*
