

**Configuration:**

LA-396-14-R 14 AWG Hearing Loop Cable -  
Red (Per ft./ .3 m)  
LA-396-14-G 14 AWG Hearing Loop Cable -  
Green (Per ft./ .3 m)

**Product Overview:**

The LA-396 hearing loop cable is a 14 gauge stranded copper cable with a colored outer jacket, red ( -R) or green ( -G), that is installed in an area in a specific layout i.e. simple perimeter loop or more complex phased array loop. The cable allows the loop drivers to drive the current to transmit an electromagnetic field allowing the audio to be picked up by the telecoils (t-coil) in hearing aids.

**Highlights:**

- 14 gauge cable used to form a hearing loop.
- Red and green colors are used to identify the two different loops in a phased array layout

**Includes:**

One (1) LA-396-14-R 14 AWG Hearing Loop Cable - Red (Per ft./ .3 m)  
Or  
One (1) LA-396-14-G 14 AWG Hearing Loop Cable - Green (Per ft./ .3 m)

Product Specification: 14 AWG Hearing Loop Cable	
<b>Physical</b>	
Length	Per ft. / .3 m
Color	Green and Red
Material	PVC Jacket
Gauge	14 AWG
Weight	1 oz. (28 g)
Rating	THHN
