

MS7625

Hex Base Quarter-Turn Threadless Mic Stand

MICROPHONE STANDS

FEATURES AND BENEFITS

This revolutionary threadless stand brings an end to the seemingly eternal chore of screwing your microphone stand into your base. In one swift motion, just push down and turn the shaft one-quarter clockwise to lock, or push down and turn one-quarter counter-clockwise to remove. The uniquely shaped 9 lb. base on this patented item means more room for feet placement. And, the low profile design makes for a more stable stand. This model is available with a black shaft (MS7625B) or chrome shaft (MS7625C).

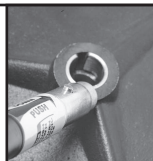

5/8" -27 solid threaded upper shaft.

Die-cast zinc clutch.

Clip-on cable holder.

A 9 lb. base makes the stand more stable when adding a boom.

A spring-loaded plunger and anti-rotation feature puts an end to the seemingly eternal chore of screwing your microphone stand into your base.
