

**Configuration:**

LS-46-072 Listen Classic Level III Stationary RF System (72 MHz)

**Product Overview:**

Meet the needs of your venue with added features thanks to the LS-46 Classic Level III Stationary RF System from Listen Technologies. Complete with LT-800 transmitter, LR-300 receivers, universal antenna kit, and four-unit charging/carrying case, the LS-46 is a full package that lets you meet ADA requirements while giving your visitors a high-quality audio experience. Built to provide a coverage range of up to 1,500 ft. (457.2 m) for larger venues, the LS-46 is compatible with nearly any audio input source, and the digitally tuned receivers stay locked to the selected channel for consistent, reliable performance.

The LS-45 is available for the 72 MHz band only.

**Highlights:**

- Ensures public venues deliver an enriched listening experience while meeting new legislative requirements for assistive listening
- Superior audio quality – 80 dB signal-to-noise ratio (SNR), setting the industry’s sound quality standard
- Offers 17 wide band 100% digital channels – Listen receivers are digitally-tuned so the transmission won’t drift
- Long transmission range ensures coverage for the entire venue

**Includes:**

- One (1) LT-800-072-01 RF Transmitter (72 MHz)
- One (1) LA-122 Universal Antenna Kit (72 MHz and 216 MHz)
- One (1) LA-326 Universal Rack Mounting Kit
