

Configuration:

LS-50-216 Listen Ultimate Level I Stationary RF System (216 MHz)
 LS-50-072 Listen Ultimate Level I Stationary RF System (72 MHz)

Product Overview:

Listen’s Ultimate series of complete, stationary RF systems offers the best possible combination of features and performance in a one-purchase package.

Beginning with the LT-800 transmitter and four (4) of our LR-500 Portable, Programmable Display Receivers specific to the 216 MHz band, the LS-50-216 system is a feature-rich combination of components ideal for smaller venues looking to offer the best possible listening experience. Additionally, the included ear speakers, neck loops, and signage kit ensure that you meet compliance requirements immediately once the system is installed.

The multi-channel LR-500 receivers included with the LS-50-216 make the system ideal for applications such as language interpretation, training sessions, and more.

Highlights:

- Feature-packed, multi-channel assistive listening system and all accessories
- LR-500 Digital Display Receivers provide listeners with outstanding audio quality and the ability to manage channel selection
- Capable of transmitting on up to 57 digital channels, each offering digital locking for reliable signal
- Includes alkaline batteries, signage kit, and more
