

**Configuration:**

- LS-51-216 Listen Ultimate Level II Stationary RF System (216 MHz)
- LS-51-072 Listen Ultimate Level II Stationary RF System (72 MHz)

**Product Overview:**

The LS-51 Listen Ultimate Level II system offers top-level performance just like the Level I system, complete with the quality and clarity of our LR-500 digital display receivers. Thanks to a coverage range of up to 914.4 m (3,000 ft.), the LS-51 is perfect for larger spaces with a capacity of up to 100 people. The programmable LR-500 receivers also make the system ideal for multi-channel audio systems, from language interpretation to multiple training sessions, conferences, and more. Additionally, the included universal antenna and rack mount kits offer additional flexibility for permanent installations and include everything needed to immediately begin offering assistive listening.

**Highlights:**

- Feature-packed, multi-channel assistive listening system and all accessories
- LR-500 Digital Display Receivers provide listeners with outstanding audio quality and the ability to manage channel selection
- Universal antenna kit and rack mount kit included for immediate installation and setup
- Capable of transmitting on up to 57 digital channels, each offering digital locking for reliable signal
- Includes alkaline batteries, signage kit, and more
