

Product Overview:

Designed to provide a fast and complete setup to get organizations started right away, the LS-06 7-Person Tour Group System from Listen Technologies combines all the equipment you need in a convenient package. The system is ideal for indoor or outdoor use and includes all of the equipment needed to offer guided tours, language interpretation, training seminars, and more. Included with the LS-06 are a portable transmitter, microphone, display receivers with ear speakers, batteries, and a carrying case for safe storage and easy transport between venues or locations. The LS-06 is also expandable, allowing you to add more receivers as your needs grow. You can also make your system more flexible by purchasing noise-cancelling or handheld microphones that meet your specific needs. From houses of worship to museums, manufacturing facilities, government installations, tour companies and more, the LS-06 is an ideal way to begin offering your visitors and customers an industry-leading assistive listening experience.

These products are approved by the FCC for use in the US. Please note that they cannot be used in all countries. Check with your local government or specific regulation with regard to broadcast frequency in your specific country. Note: FCC rules limit the use of this product to assistive listening.
