

Configuration:

Q400 Boundary Microphone with Cardioid-Directional Pickup

Product Overview:

The Q400 boundary microphone is a small and unobtrusive, ideal for concealment on a service counter. The design fixes easily to a desktop surface, and provided the desk can be drilled, the cable can be invisible from the top. It has a direction, hypercardioid response which minimizes room reverberation and background noise pickup, over a clean and intelligible signal.

Highlights:

- Small and unobtrusive, ideal for concealment on a service counter
- The design fixes easily to a desktop surface, and provided the desk can be drilled, the cable can be invisible from the top
- It has a direction, hyper-cardioid response which minimizes room reverberation and background noise pickup, over a clean and intelligible signal

Includes:

One (1) Q400 Boundary Microphone with Hyper-Cardioid-Directional Pickup

Product Specification: Boundary Microphone with Cardioid-Directional Pickup	
Audio	
Frequency Response	20 Hz - 16 kHz > 60 dB SNR (Optimised for Voice)
Impedance	200 Ohms
Input Sensitivity	-64 dB ±3 dB @ 1 kHz (0 dB = 1 V/Bar)
Polar Pattern	Cardioid-Directional
Interconnections	
Connector/s	3.5 mm Mono
Power	
Power Supply Voltage	DC 1.5 V
Physical	
Color	Black
Shipping Weight	1.0 lbs. (0.5 kg)
Cable Length	9.8 ft. (3 m)
Weight	< 1 lb. (.43 kg)
