

SB9600

Tripod Studio Boom

MICROPHONE STANDS

FEATURES AND BENEFITS

Our most affordable and most stable studio boom combines a tripod base, two straight booms and a 7" mini boom extension into one mean microphone support machine. The boom shafts can be attached for professional studios with ample space. Or remove the front half of the boom and use the back boom for project studios where space is a concern. With this fold-and-go convenience and steel tubing, this is a great item for any budget!

Solid threaded boom ends complete with washers.

Boom clutch assembly features 2" mating disks w/ 40 locking teeth.

Large ergonomic locking knobs.

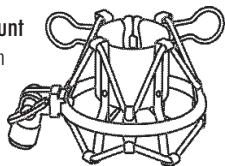

82" Boom with 7 lb. sliding counterweight that locks in place.

120° tripod leg design and low center of gravity for added stability.
