

**Configuration:**

TP-PZM TalkPerfect PZM Microphone

**Product Overview:**

The TalkPerfect PZM Microphone is typically mounted on the horizontal surface in front of the window and just off to one side. This is more robust than the glass mount microphone and is better in noisy environments with a lot of background noise.

**Highlights:**

- For noisy client side environments
- Applications where the glass mount microphone cannot be fitted

**Includes:**

One (1) TP-PZM TalkPerfect PZM Microphone
