

SS7766

Airhead Speaker Stand

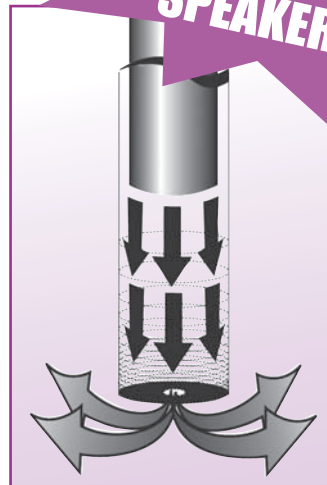

SPEAKER STANDS

FEATURES AND BENEFITS

This Airhead features a built-in air chamber that lowers even the heaviest speaker cabinets gently on a cushion of air. A pneumatic shock absorber in the center shaft prevents the speaker cabinet from accidentally sliding for increased safety. Adjusting the cabinet is now easier with a six "stop-point" locking system.

**PROTECT
your
SPEAKERS!**

A pin hole in the bottom of the shaft controls the release of air so that your speaker cabinets will never come crashing down.
