## *SmartMount*™

Pull-Out Swivel Wall Mount
For 26" to 50" LCD & Plasma Flat Panel Screens

New Tilt and Roll Design!
Patent Pending

The SmartMount™ Pull-Out Swivel Wall Mount combines the best features of a wall mount and a pivot arm. In the closed position, the SP850 acts as a flat or tilting wall mount. At only 2.25" way from the wall, its unique wall plate and built-in cable management neatly hide all components and cords. Extended, the SP850's sturdy arm construction smoothly glides the screen out 10.75" from the wall and allows the screen to pivot up to 45 degrees. This feature not only enables the screen to be positioned for an optimal viewing angle, but it also provides easy access to the back of the screen for maintenance. The SP850 is also ideal in applications where the screen needs to be recessed into a cubby hole, custom frame or aligned into a video wall.

- 2.25" deep in collapsed position

- 10.75" extension

- 0°, 5°, 10° lockable tilt

- +/-1° roll

- Up to 45° swivel
