

Platinum Series Condenser Microphone

AS800 / 14075

NEW PRODUCT

Features and Benefits

Designed to produce accurate, natural sound, our versatile Large-Diaphragm Condenser Mic is ideal for use in commercial studios and home recording setups. Perfect for capturing everything from vocal whispers to acoustic guitars to thundering kick drums, this full-range mic delivers smooth, detailed sound reproduction with the flexibility to handle diverse sources without distorting. The included shock mount isolates the mic from external vibrations to reduce unwanted rumble. This mic also comes with a carrying case for convenient transportation and a storage pouch to keep the capsule free of dust.
