

# Pole Mount Adaptor

TANNOY Pole Mount Adaptors facilitate the installation and mounting of speakers onto beams, poles and posts, providing robust support in both indoor and outdoor applications. Pole Mount Adaptors can be used with standard TANNOY yoke brackets or K-Ball brackets. Pole Mount Adaptors are available in black and white or they can be painted to match the surrounding space. The adaptor will fix to poles ranging from 77 to 228 mm diameter.

EN

## Installation Using Yoke Brackets

- Use the fixings supplied with your speaker to fix the empty yoke bracket to the un-mounted pole bracket adaptor. (Different speaker models require different numbers of fixing screws. Refer to your speakers' documentation for details.)

- Fix the pole mount bracket adaptor to the pole using the strapping provided. The bracket can be mounted in portrait or landscape orientations.

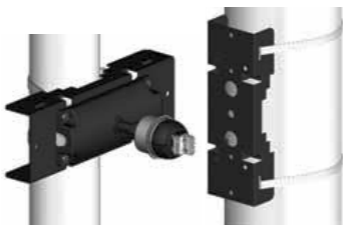

- See the main product QSG for further specific information about proper connection and fixings for your speaker.

## Installation Using K-Ball Brackets

- Pass the speaker wire through the un-fixed pole mount adaptor plate.
- Connect the speaker wires to the connector block in the rear of the K-Ball bracket. (See the K-Ball documentation for specific connection instructions.)
- Offer the K-Ball bracket up to the adaptor plate (if outdoors, with the foam gasket squeezed in between, if outdoors).

- Fix the K-Ball bracket to the pole mount adaptor (use the fixings supplied with the K-Ball bracket).

EN

- Fix the pole mount bracket adaptor to the pole using the provided strapping. The bracket can be mounted in portrait or landscape orientations.
- See the main product QSG for further specific information about proper connection and fixings for your speaker.
- Please refer to the main product QSG for further information about specific speaker models.
