TILE REPLACEMENT

2' x 2' UL Listed Fire Signaling Device with Mounts for Strobes, Smoke Detectors, Indicator Lights & Cameras

23 3/4

GENERAL DESCRIPTION

The **UL22/70/DM** is a complete 2' x 2' UL listed fire signaling device providing superior voice intelligibility performance, shallow depth, lightweight, fire-protective signaling device with built-in device mount to accomodate 3rd party strobes, smoke detectors, indicator lights & cameras. Components include: an 8" O.D. loudspeaker, 10-oz. magnet, fire retardant loudspeaker with a 4W-70V rotary select transformer and integral junction box for secure and inspectable connections. Integral enclosure is 1,283 CID molded fiber. Grille is perforated steel with four (4) seismic tie-off points in a white powder coat finish. Line supervision capacitor is included. **No assembly required. 4-14 gauge color-coded appliance wiring included.**

UL Listed 1480 (UUMW)

TYPE F - As a Fire Protective Signaling device when installed with supplied installation instructions and requirements of NEC/AHJ **UL Listed 2043** - Suitable for use in air-handling spaces.

ASTM E84 - Includes integral backbox that meets/exceeds flame & smoke test w/3 hour burn rating.

CSFM Certified #7320-2288:0500 - Listed as speakers for use with separately listed compatible fire alarm control units.

INTENDED USE - Mass Notification & Emergency Communications

Installation
Program Material
Signal tones and voice
Maximum Device Mount
Not to exceed 3 Lbs.
