

KOMPLY™

Knob 3

3-Channel Dimmer for RGB LED Strips

This compact unit provides the ability to independently control the intensity levels of the red, green, and blue channels of our RGB LED strips, to manually adjust the desired color and brightness. This is done by means of three rotary knobs located on the top of the housing.

Simple, endless RGB color mixing are at your fingertips with the Komply™ Knob 3!

And of course, it is backed by a 2-year warranty!
