

Wireless Transmitter Body Pack

MA1435 / 14707

Features and Benefits

The MA1435 Wireless Transmitter Body Pack secures a wireless transmitter to a performer without sacrificing comfort. The compact pouch fits a wide range of wireless transmitters and can be unobtrusively worn under or over costumes or clothing. For long-lasting comfort, the belt adjusts in size and flexes while the hook-and-loop fastener ensures stable attachment during active performance including fitness classes and theater productions. To protect the transmitter from moisture damage, the pouch is constructed of water-resistant neoprene.
