

OVERVIEW

With a push of a button, the AND Button Kit (AND-BTN-KIT-1) enables the initiation of a hands-free two-way communication when connected to an AND PoE IP device. **See *button kit compatibility chart* on page 2.**

AUDIO FUNCTIONALITY

Intercom, page, or all-call
Trigger pre-programmed text, or
privacy mode

NOTIFICATION

Trigger alerts that activate other
devices, such as a strobe or
electronic lock

SIP INTEGRATION

Enable SIP calls
Dial out pre-programmed
internal extensions and
external phone numbers

DUAL COMMANDS

Program button push and
release / push and hold modes
Accommodates up to two
extensions or phone numbers

SOFTWARE

Diagnostic software included
Compatible with third-party
software, including InformaCast,
Revolution, and Cisco CallManager

SOLUTIONS

- Paging
- Intercom
- Emergency notification

ADDITIONAL FEATURES

- Trigger alerts that activate other devices, such as a strobe
- Built-in web server
- Operates by connecting the Peripheral Interface Adapter (included) to an AND IP device

MOUNTING

- Standard junction box required for mounting

SOFTWARE

The AND-BTN-KIT-1 integrates easily with third-party mass notification software, as well as SIP and VoIP phone systems, enabling a facility to take advantage of all the device capabilities. The device also comes with diagnostic software (compatible to run alongside third-party software), and an on-board web server interface, both which provide the ability to monitor and troubleshoot the ANetD devices on the network.

Third-Party Software

- InformaCast (Singlewire)
- Revolution (Syn-Apps)
- IPSession (IPCelerate)
- MessageNet Systems
- BellComander (Acro Vista)
- And more!

VoIP Phone Systems

- Cisco CallManager
- Mitel
- Avaya
- 3CX
- Polycom
- And more!

IPClockWise

- Diagnostic tool included with device purchase
- Complements investment in third-party software
- Developed and supported by Advanced Network Devices
