NOCTURNE™ GRAND

In a complicated world where technology seems to overwhelm what used to be the simplest of tasks, the Nocturne Grand N-100 is an oasis of simplicity and pure piano pleasure. Contemporary and expressive, the Nocturne Grand features gorgeous, richly textured sound and a modern yet classic design that fully evoke the beauty and elegance of a concert grand piano.

The advanced digital technology is invisible, the sophisticated electronics transparent. What you see, hear and play is a piano—one that is virtually indistinguishable from the real thing. Drawing on our vast experience with both acoustic and electronic instruments, we've captured the true essence of the grand piano, bringing all of the dynamic sounds and performance nuances of an actual 9-foot concert grand into a compact digital piano. The result is a truly classic instrument that becomes a natural extension both of your hands and your musical imagination.

Escape the complicated world.
Immerse yourself in the N-100 Nocturne Grand.

Sleek, black cabinet that combines an elegant, modern design with hints of traditional grand piano styling

3-level Dynamic Stereo Sampling Advanced Wave Memory for the most authentic, richly textured grand piano sound

Graded Hammer Effect (GH) keyboard provides authentic piano feel and naturally expressive response

Keys are weighted heavier in the lower octaves and become gradually lighter into the upper ... just like an acoustic grand piano

Three piano-style foot pedals—soft, sostenuto, and damper (sustain)

Special half-pedal effect fluidly measures your motion of pedaling for an added sense of acoustic piano realism

Built-in 20W x 20W stereo amplifier and 4-speaker system provide the warmth of tone and volume perfectly suited for the home environment

No external sound system required

Exceptional ease of use and simple operation with backlit touch controls

MIDI IN/OUT ports for communicating with other instruments or computers via MIDI interface
